

BASIC INSTRUCTIONS FOR FOOD TRANSPORT

The trucks/containers need to be clean, dry and free of smell, dust, insects and moulds.

If goods are collected in taut-trailers the side structure has to be of aluminum slats.

The reloading or storage of the goods is prohibited.

Granules, potting soil, seeds, sawdust or similar goods are prohibited as additional cargo.

It has to be excluded, that no animal products (for example: parts of pork, beef and other) are being loaded together or nearby our products.

Neither chemicals nor dangerous goods (also ADR with less than 1000 points) may be loaded near our products!

NEGATIVE LIST
